

Steps to pitch like a pro to investors	Useful Expressions for my presentation
Focus on the why	When I was in the high school, I have a problema with the software of my computer and I need to change that..... so the goal of this presentation is....
Use rhetorical question	What's the best problema with the old and slow computers in the actuality?
Give an amazing, surprising or shocking fact or statistic	In the last 3 years, the demand of computers and software was incremented by 300%
Tell your audience imagine something	Imagine the new generations, every will be technologicaly and they need the best software and tools to learn
Invite to audience to ask question	Now if you have some questions is time to quest and I'm going to answer
Come full circle	Let me come back to the question I asked you at the start of the presentation
Don't be too salesy	I don't need to look so salesy so I need to present my product and don't propose a lot the product
